

Glaxo is taking away your right to affordable prescription drugs!

The world's second largest drug maker, GlaxoSmithKline, has stopped providing its drugs to Canadian pharmacies and wholesalers who supply an estimated one million uninsured and underinsured American seniors with affordable, high quality medications. If Glaxo gets its way, all drugmakers will likely follow its lead and eventually strip seniors of their well-established right to access affordable drugs from alternative sources.

Fight Back to Stop Glaxo Now:

- 1 Contact the U.S. Congress switchboard in Washington, DC at 1-202-224-3121, ask for the names and phone numbers of your House and Senate members, and call them to share your concerns. Or, visit www.congress.org to learn your legislators' e-mail addresses and send them a note.
- 2 Call Glaxo's toll-free consumer hotline at 1-888-825-5249, press 3, then press 2, and give your views to the live operator.
- 3 Write Glaxo's U.S. CEO and tell him to stop the restrictions being placed on Canadian drugs:
Mr. Jean-Pierre Garnier, CEO, GSK U.S. Pharmaceuticals, Five Moore Drive, P.O. Box 13398, Research Triangle Park, NC. 27709
- 4 If you have been buying your Glaxo drugs from a Canadian pharmacy and cannot afford the high U.S. pharmacy prices, check with your doctor to see if there is a comparable drug made by another drugmaker that you can switch to.
- 5 Consider selling any Glaxo stock that you currently hold either directly or through a pension fund. Glaxo stock is listed as "GSK" on the New York Stock Exchange.
- 6 You may want to consider switching from these Glaxo over-the-counter treatments to those made by other manufacturers. The company's products include the following brands: Beano, Citrucel, Contac, Geritol, Sominex, Sensodyne, Polident, Poligrip, Nytol, Nicoderm, Nicorette, Tegrin, Tums and Vivarin.

This message is brought to you by these American and Canadian organizations who work to keep affordable alternative-sourced drugs available as a safe, reliable and low-cost option for all Americans. The person depicted is a model and the photo is used for illustrative purposes only.
